

AC MOTOR RPM CONTROL

YASKAWA

Adjustable Frequency Drives

(YASKAWA ELECTRIC - JAPAN)

1/8 to 1750 HP

System Integrator: L&T C&A

Concerned with

Technology? No Problem... World's first 480V 3-Level Inverter

Quality? No Problem... 0.0062% Field Assembly Failure Rate

Energy Savings? No Problem... Energy Savings Software is Available

Harmonics? No Problem... Harmonic Estimating Software is Available

POWERMAG CONTROL SYSTEMS PVT. LTD.

Head Office:

532, Nehru Nagar, Maniyakaran Palayam, Coimbatore - 641 006. India.

Mobile: 092444 07258 Tel: ++91-422-2532013, 2537990

Fax: +91-422-2537988, email: info@powermag.in

Chennai Office:

Plot No. 38, Rama Krishna Nagar, Kolapakkam,

Chennai - 602 101. Mobile: 098402 35984

Our Other Offices at **Delhi - Mumbai - Kolkata**

TRUSTED SERVICE SINCE 1993

AC MOTOR RPM CONTROL

YASKAWA - Varispeed (YASKAWA ELECTRIC - JAPAN)

- 1/8 HP to 1750 HP
- 4 in 1 Control: V/F, V/F with PG, Sensorless Vector, Flux Vector
- Wide Voltage Input 323 V to 528 V 3 Phase AC
- Simple, Powerful Robust, Compact, Energy Efficient
- All Motor Protections
- Most Rugged under Extreme Working Conditions
- Long Life & Easy Maintenance
- Exceptional Performance Life - 10 years
(Assumes operation condition at 40°C, 80% load & 24 hours operation)

Yaskawa is the world's largest manufacturer of AC drives for industrial automation and OEM equipment. Yaskawa drives cover every automation application need in the industrial plant. These AC drives incorporate the latest technological advancements in AC motor speed control, made possible by experience and dedication to quality in design and manufacturing. These adjustable frequency drives offer the greatest selection of size and performance available, with power ranges from 1/8 HP to 1750 HP. Yaskawa AC Drives provide the benefits of network communications, support by software tools for parameter management, custom software options, and new ease of installation. Because all adjustable frequency drives are rigorously tested, Yaskawa ensures that quality and reliability are designed in and build in.

Powermag Control Systems (P) Ltd has been established in the year 1993 by a team of qualified engineers. Powermag is the authorised system integrator for L&T Control Automation Products.

Powermag offers the services with qualified, efficient, professional and experienced engineers to visit our valued customer site for project/application study as per user requirements and assist to select the right products, models, ratings, specifications and design standards in all kind of automation products from AC Motors to Soft Starters, AC Drives, AC Servo Motion Control Systems, PLC, HMI, DCS, sensors, transducers and control panels at competitive price.

Powermag ensures prompt response right from product supply to system installation and operation, on call engineers visit to the field for rectification incase of critical breakdown and preventive maintenance. Powermag service center has an excellent infrastructure workshop and well equipped lab with modern instruments for after sales service. Training and Knowledge sharing is our regular and continuous monitoring process with our principles to update the latest product developments and technology advances takes from time to time.

Powermag continues to hold the highest performance achievement award in terms of productivity and dedicated customer service recognised by our principles L&T Control Automation. Powermag key design criteria includes reliability, serviceability, flexibility, performance and ease of installation assure the customer of a world class product which can compete with any one on the market today.

Our Client Sectors

Our Customer base spreads throughout India covering diverse industrial segments which includes Power, Chemicals, Machine Tools, Material Handling, Textile, Pharma, Sugar, Refinery, Food & Beverage, HVAC, Cranes, Hoists, Lifts, Elevators, Packaging, Plastic & Rubber, Paper, Cement, Metal, Mines, Automobiles, Water Supply, Irrigation, Logistics, Glass Industry and other engineering OEMs

Our Customer Advantages

- Ready stock in all models and ratings.
- Young, Dynamic and Professional Technical Team is always ready to respond to all your enquiries
- Healthy Relations with our principles to provide full support to our valued customers
- Assurance of Genuine Supplies at competitive rates
- Local support through channel partner network across the country
- In-house Service Engineers to assist in critical breakdowns
- Guaranteed Customer Satisfaction with prompt after sale service.
